Victorian Certificate of Education (VCE) 02/2012 - 11/2014
Melbourne High School
• 98.10 ATAR

EXPERIENCE

IT & Web Systems Intern 07/2026 - Present
Strategy&Ops Consultancy Pty Ltd Melbourne VIC

- Implemented a staging environment to test website changes before production deployment.
- Diagnosed website crashes and performance issues using debug logs, PHP error logs, HTTP/database activity, and system configurations.
- Configured, integrated, and tested e-commerce payment systems.
- Managed and updated a WordPress e-learning platform, including enrolment, course access, and platform functionality.
- Implemented frontend UI/UX and content improvements.
- Produced technical documentation, maintenance procedures, testing records, and recommendations to support safer ongoing website administration.

Meter Reader 11/2022 - Present
Skilltech Melbourne VIC

- Completing a high volume workload of up to 700 readings per day whilst maintaining an accuracy of over 99.9%.
- Managing conflict resolution by professionally handling interactions with unprepared customers, maintaining a calm and solution-oriented approach.
- Performing with strong attention to detail, identifying and regularly reporting irregularities and potential faults.

COURSES

Scrimba - The Frontend Developer Career Path

Gained comprehensive knowledge in HTML, CSS, Javascript, React, responsive web design with hands-on experience building real-world web applications.

Strucy - Data Structures & Algorithms

Studied key data structures and algorithmic techniques, with a focus on problem-solving, performance optimisation, and efficient coding practices using Javascript and Python.

TECHNICAL SKILLS

Javascript & Typescript • React • Node.js • HTML • CSS • Sass
Tailwind • Python • SQL • Linux
Git • Responsive Web Design

SOFT SKILLS

- Effective Communication
- Strategic Problem Solving
- Quick and Adaptable Learner
- Teamwork
- Time Management

EXPERIENCE

Graduate Structural Engineer

03/2021 - 11/2022

McFarlane & Partners

Camberwell VIC

- Produced professional structural designs using engineering calculations and structural analysis software.
- Prepared professional AutoCAD drawings, specifications, sketches, and mark-ups for construction and forensic engineering projects.
- Conducted site inspections to assess existing and new structures, review design compliance, and support quality assurance.
- Communicated with builders, architects, contractors, and clients to clarify requirements, resolve project issues, and meet deadlines.
- Completed load and capacity assessments of existing structures to support forensic investigations and practical engineering recommendations.
- Supported office operations by managing enquiries, drawing registers, project notes, and email correspondence.

Plumbing Expert

03/2019 - 03/2021

Bunnings

Port Melbourne VIC

- Delivered outstanding customer service in person and over the phone.
- Developed innovative solutions quickly for unique customer problems and inquiries.
- Maintained the plumbing department, liaised with suppliers and representatives to ensure adequate stock requirements and sales targets were met.
- Troubleshoot plumbing issues providing customers with technical advice.

PERSONAL PROJECTS

CROCODILE - Full-Stack Mock E-Commerce Website

React | TypeScript | Sass | Node.js | Express | PostgreSQL | REST API | Netlify | Render | Supabase

Created a full-stack mock e-commerce site for an original, personally designed card game. Developed a RESTful API with Node.js and Express, connected to a PostgreSQL database to dynamically fetch and render product data. Complete with an interactive e-shop with basket and simulated checkout functionality, alongside contact features, gameplay information, card designs, and brand storytelling.

crocodile-mk.netlify.app

PALATABLE - Interactive Colour Palette Generator

React | TypeScript | Tailwind CSS | Local Storage | Netlify

Built a responsive colour palette generator that uses colour theory and custom generation logic to produce multi-layered colour palettes. Implemented binary search to match colours with a 30,000+ name database, with local storage support for saving palettes and PNG swatch downloads.

palatable.netlify.app

CLOCKWISE - Instantaneous Timezone Converter

React | TypeScript | Tailwind CSS | Netlify

Built a modern timezone converter that allows users to view, compare, and plan times across multiple global locations. Featuring live and manual time modes created with JavaScript date/time functions and custom conversion logic, with city selection and browser-based location detection for automatic local time comparisons.
